Haryana PWD (B&R) Branch.

Memo No.302-RII-11/2163-2223/RI Dated: 14.05.2015

**Subject : Road safety measures- Speed Breakers.**

It has been decided that speed breakers on National Highways, State Highways and Major District Roads be removed and no further speed breakers should be allowed to be constructed. In case there is much resistance to remove speed breaker or it is felt very much essential for safety of road users only in that case speed breakers should be provided strictly as per IRC recommendation. A sketch is enclosed for ready reference (Annexure-I). 3 studs each on both sides of speed breakers should be provided. Caution Boards luminous type (reflective) be provided about 40m ahead of speed breakers. Speed breakers should be well illuminated by providing reflective painting, cat eyes, broken glazed tiles as per importance and requirement. However, it has been observed that broken glazed tiles provided on speed breakers are more effective, durable and economical. Speed breakers provided on junctions as per instructions issued vide memo No. 302-R-11/460-470/RI dated 07.02.2011 (Annexure-II) and vide memo No. 354-65/Plg. Dated 05.03.2014 (Annexure-III) should not be removed but brought to standard.

Information regarding existing speed breakers be submitted to headquarter in the enclosed Proforma-SB-1 by 21.05.2015 through email as well as hard copy. Speed breakers on National Highways, State Highways and Major District Roads be removed within two months of the time i.e. by 15.07.2015 and progress report be submitted fortnightly (by 5<sup>th</sup> and 20<sup>th</sup> of each month) for removal of speed breakers in the enclosed Proforma-SB-2.

The information be compiled at circle office and should be submitted through email on [pwd-eic@hry.nic.in](mailto:pwd-eic@hry.nic.in) [pwd-ceroads@hry.nic.in](mailto:pwd-ceroads@hry.nic.in) [pwd-seroads@hry.nic.in](mailto:pwd-seroads@hry.nic.in) [pwd-eeroads1@hry.nic.in](mailto:pwd-eeroads1@hry.nic.in). The information should be sent in excel format.

DA/As above.
